Dear Colleagues and Friends,

It is with great pleasure and pride that the European Society of Contraception and Reproductive Health (ESC) welcomes you to the First Global ESC Conference. Copenhagen has a strong tradition for successful organisation of congresses due to its excellent meeting facilities, efficient transportation and quality accommodation.

We are honoured to announce that the Conference Patron, Her Royal Highness Crown Princess Mary, has graciously agreed to open the conference and take part in the Opening Ceremony.

The primary purpose of the First Global Conference is the empowerment of women and improvement of all aspects of sexual and reproductive health. From the very start our aim was to open up new and global avenues of research and analysis in order to promote sexual health care with emphasis on regional differences, cultural and political diversities as well as new technologies. With this Conference, we believe we have achieved our objectives and we are very grateful and would like to thank all the session organisers, chairs and speakers, who have devoted their time and energy into making this Conference a truly global event and for the high standard of the Scientific Programme. We would also like to thank the Nordic Organising Committee, ESC’s International Council representing professional organisations, ESC’s Scientific Committee as well as individual opinion leaders who have all contributed to the high educational standard of the scientific programme and thus ensuring that the sessions are informative and interactive.

During the Conference you will have the opportunity to attend the varied scientific programme, with Keynote Lectures & Debates, Congress Sessions, Society arranged Symposia, Sponsored Symposia, Young Scientists’ Sessions as well as Free Communication, Oral and Poster presentations. The support from the pharmaceutical companies has been outstanding.

Networking in a relaxed and friendly atmosphere is one of our aims and with that in mind, we have arranged some social events to suit every taste. For those who have never visited Copenhagen, we have arranged some tours and for everyone who enjoys good food in a relaxed atmosphere, there is the Congress Dinner on Friday, 24 May.

Once again, Welcome and thank you for coming. Enjoy the Conference and your stay in Copenhagen.

Practical information

Badges
Conference badges should be worn by all participants at all times during the conference and while visiting the exhibition area. No badge, no entry. Badges are colour-coded as follows: participants: white, exhibitors: blue, organisers and staff: yellow.

Certificate of attendance
A certificate of attendance will be available in your personal envelope and will be delivered together with your badge upon arrival.

Currency & credit cards
The currency in Denmark is the DKK (Danish kroner). Major credit cards are accepted in hotels, taxis, restaurants and shops. All conference fees and rates are charged in Euro only.

Electricity
Electricity in Denmark is 220-volt AC. Plugs are European standard with two round pins.

Evaluation form
In order to allow the organisers to learn from past experiences they would be very grateful if you would be willing to give them the necessary feedback. An evaluation form is available in your conference bag. Kindly complete the form and return it to the registration desk. The conference organisers appreciate your valuable feedback.

Exhibit and sponsors
See also “exhibit and sponsors” later in this final programme. Coffee breaks will be served in the exhibition area. Delegates are encouraged to visit the stands and to recognise the valuable support which these companies have provided towards the conference.
Hotel accommodation
ICS (International Conference Services) is in charge of all hotel reservations and will have an accommodation desk within the registration area with the aim to help you with any questions related to accommodation.

Insurance, liability
ESC does not accept liability for individual medical, travel or personal insurance, and participants are strongly advised to take out their own personal insurance policies in their country of origin.

Lunches
Participants who attend the expert lunch time sessions on Thursday, Friday and Saturday or the MSD lunch-time symposium on Friday will have a free lunch box provided. A cash bar is foreseen in the Bella Center. The Lobby Bar and Sky bar of the Bella Sky Hotel are open.

About Copenhagen

Copenhagen is the capital and largest city of Denmark, with an urban population of 1.2 million. Traditionally associated with the Vikings, Hans Christian Andersen’s Little Mermaid and Danish Design, Copenhagen ranks first among European cities in quality of life. It is also considered one of the world’s most environmentally-friendly cities. With its rich history full of historical buildings and ancient streets, its outstanding museums and galleries, the uniquely enchanting Tivoli Gardens and a resident monarchy that is the oldest in the world, the Danish capital has a host of attractions to suit all tastes and it is well worth spending a few extra days.

Amalienborg palace
Amalienborg palace is considered one of the greatest works of Danish Rococo architecture and was constructed in the 1700’s. It is made up of four identical buildings spread around the octagonal courtyard. This is the main residence of Her Majesty the Queen. When the flag is raised, it signals that the Queen is present.

Christiania
Christiania, the free town within the city, is without a doubt one of Denmark’s most popular tourist attractions. This controversial area is loved by many, but has been a turning point for strong debate especially because of the locals relaxed view on hash and their at times quite anarchistic statements.

Tivoli Gardens
An enchanted world of exotic architecture, exquisite gardens and scenery, theatres, open air stages, restaurants, cafés, and 26 rides ranging from monstrous rides, that will twirl and spin their victims, to gentle children’s rides. A visit to Tivoli is truly a one-of-a-kind experience. The beautiful and romantic flower gardens, the vivid illuminations, the original Pantomime Theatre from 1874, the blend of past and present - all come together to create a uniquely pleasurable atmosphere you won’t find anywhere else.
The Little Mermaid
The enchanting statue of the Little Mermaid provides a gentle contrast to the monumental Opera House on the opposite side of the harbour. A gift from Carl Jacobsen to the city of Copenhagen, this bronze statue was unveiled at the Langelinie Harbourfront Promenade back in 1913.

Nyhavn
Den Nye Havn, ‘the New Haven’, was originally a busy commercial port where ships from all over the world would dock. The area teemed with sailors, ladies of pleasure, pubs and alehouses. ‘Den Nye Havn’ eventually changed its name to ‘Nyhavn’ (‘Newhaven’), and gradually the beautiful old slanted houses were renovated and classy restaurants started popping up. Hans Christian Andersen used to live at no. 20. This is where he wrote the fairy-tales ‘the Tinder-Box’, ‘Little Claus and Big Claus’, and ‘the Princess and the Pea’.
Social programme

Wednesday, 22 May 2013 • Opening Ceremony • 19:00 • Welcome Reception • 20:30
All participants are warmly invited to join us for the Opening Ceremony. It will be an entertaining and eventful introduction to the congress. After the Opening Ceremony, we invite our delegates to attend the Welcome Reception. Attendance at the Opening Ceremony and Welcome Reception are complimentary for registered participants.

Friday, 24 May 2013 • Congress Dinner • 19:45 • Carlsberg Museum
The First Global ESC Conference will not only be about science, but also about having a good time. Sign up for this event and enjoy a fantastic evening in the company of your friends and colleagues. We will offer an exquisite blend of excellent food and entertainment in the Carlsberg Museum. The buses will leave from the entrance of the Bella Sky Hotel at 19:15 for the Carlsberg Museum (Ny Carlsberg vej, corner with Valby Langgade 1, 1799 Copenhagen). Dress code: business casual.

The tickets for this unique event are 100 Euro each.

Saturday, 25 May 2013 • Closing and Award Ceremony • 15:30 • Congress Hall A2
The Closing and Award Ceremony will be held after the last session of the conference. During this Ceremony, presentations will be made to the winners of the Best Poster Award, the Best Free Communication Award, the Young Scientist Award, the Public Poster Award and the ‘Award for the best abstract representing global excellence’. At the end of the Ceremony we will say goodbye to Denmark and welcome the countries hosting the next congresses: Portugal and Switzerland.
Awards

Young Scientist Award
A Young Scientist session (Thursday, 23 May, 15:00 – 16:00, Auditorium 12) will provide a special platform for presentations by young scientists (below 35 years of age). Each presenter in this session will compete for the ESC Young Scientist Award.

Best Free Communication Award
The Best Free Communication Award will be awarded during the Closing Session on Saturday.

Best Poster Award
Posters should be mounted before 10:00 on the day of your presentation and must be taken down immediately after the afternoon coffee break on the same day. You have been assigned a poster board number and date and you are expected to be at your assigned space during the coffee and lunch breaks:
• Posters P001 to P159: Thursday, 23 May 2013
• Posters P160 to P301: Friday, 24 May 2013

Posters will be marked during the morning and some posters will be chosen for discussion at lunchtime. You will need to check at reception between 12:45 and 13:00 to see if your poster is chosen. If you are chosen, then you must be at your poster by 13:15 to discuss it with the poster committee members. After this review 8 posters will be selected. Please go to reception at 15:00 to see if your poster has been chosen for a formal presentation later that day between 16:30 - 18:00. If you are selected, you will be expected to give a 7 min presentation using 3-4 slides followed by 3 min of discussion. Please bring your slides on a USB stick. The name of the winner for that day will be available from reception after 18:30 or the next morning.

The award ceremony will take place on Saturday, 25 May 2013, 15:30 - 17:00 during the Closing Ceremony.
ESC Best Public Poster Award
In your personal envelope (among others containing your badge), you will find two voting ballots. Please indicate on each ballot a poster number you would like to nominate. Since you have two ballots, you can nominate two different posters. Please drop both ballots in the poster voting bin at the registration desk.

The ESC Best Public Poster Award will be awarded during the Closing Ceremony on Saturday. One ballot will be drawn randomly and this participant receives a fee waiver for the 13th ESC Congress in Lisbon, Portugal.

Award for the best abstract representing global excellence
The award for the best abstract representing global excellence will be awarded during the Closing Session on Saturday.
Scientific Programme

The Scientific Committee has endeavoured to put together a high standard, well balanced scientific programme, offering current topics and excellent speakers.

- Keynote lectures and keynote sessions are plenary sessions. Leading experts will present specific subjects.
- Congress sessions: in each of these sessions, three experts will provide up to date information on a particular topic.
- Debates: are meant as interactive sessions, introduced by two experts in the field (pro/con) and followed by an in depth discussion with the audience.
- Educational sessions: will give the opportunity to participants to improve their knowledge.
- Symposia will be the platform for the pharmaceutical companies.
- Regional and international associations, organisations and societies will be holding sessions.
- Free Communication sessions: a selection of the submitted free communications are scheduled into separate free communication sessions. Abstracts of selected free communications can be found in the Book of Abstracts.
- Poster presentations are chosen from the submitted abstracts and will carry equivalent scientific status to free communications in the programme. Abstracts of the poster presentations can be found in the Book of Abstracts. During the poster sessions, the best posters of the day will be presented.

### 13:00 - 14:30 EXS4 - ESC Expert Group on Sexual Medicine and Sex Education - Communication about sexuality in a medical setting – pitfalls and recommendations

**Meeting Room 179**

*Chairs: Olga Loeber, (the Netherlands), Lyubov Erofeeva, (Russia), Olaf Kapella, (Austria), Simone Reuter, (UK), Ulrike Sauer, (UK), Sanderijn van der Doef, (the Netherlands), Cristine Winkelmann, (Germany)*

This interactive workshop allows participants to explore common pitfalls when addressing sexuality with their patients in a medical setting. After a short theoretical introduction on communication and counseling in the field of sexuality, members of the expert group will show different problems that can arise in dealing with and communicating about sexuality. Participants are invited to contribute their experiences and skills in this area to help our patient tell her story and get the level of care she needs. Using this and other examples from the participants’ daily practice we will formulate take-home messages and good practice points.
